

PartnerTech Keyboards

KB-78

- All keys are fully programmable and relegendable 78 keys with a 6 x 13 keyboard matrix
- Spill resistant membrane key switch with tested 10 million presses
- IBM AT/PS 2 compatible with DIN 5 pin or mini DIN PS2 connector
- Optional RS232 interface
- Integrated magnetic reader with single, dual or three tracks for credit cards, ATM cards and driver license
- Integrated bar code interface
- External keyboard port for programming key codes and connecting with another keyboard compatible device
- 6 position lock for data access control
- Dimension: 280mm (L) x 188mm (W) x 42mm (H)
- Weight: 1.13kg
- FCC, CE, EMC Approved

KB-128

- All keys are fully programmable and relegendable 128 keys with a 8 x 16 keyboard matrix
- Cherry key switch
- IBM AT/PS 2 compatible with DIN 5 pin or mini DIN PS2 connector
- Add-on magnetic reader or bar code slot reader
- External keyboard port for programming key codes and connecting with another keyboard compatible device
- 6 position lock for data access control
- Dimension: 350mm (L) x 232mm (W) x 49mm (H)
- Weight: 1.6kg
- FCC, CE, EMC Approved

KB-18LD

- All keys are fully programmable up to 15 codes for each key 18 keys with a 5 x 4 keyboard matrix
- 16 x 2 LCD display
- Integrated magnetic reader with single, dual or three tracks and ISO7811~3 card standard RS232 interface
- 2,400 to 19,200 BPS baud rate
- KB-18LD can be powered from keyboard by using the supplied Y cable or external power adapter
- Dimension: 207mm (L) x 100mm (W) x 53mm (H)
- Weight: 0.38kg
- FCC, CE, EMC Approved

KB-1140M

- Compact keyboard with standard QWERTY layout
- Programmable function
- Spill resistant membrane key switch with tested 10 million presses
- IBM AT/PS 2 compatible with DIN 5 pin or mini DIN PS2 connector
- Optional RS232 interface
- Plug in magnetic reader with single, dual or three tracks for credit cards, ATM cards and driver license
- Integrated bar code interface
- Integrated touch pad available with either RS232 or PS2 interface
- Dimension: 439mm (L) x 192mm (W) x 52mm (H)
- Weight: 2.1kg
- FCC, CE, EMC Approved

KB-1141M

- Programmable function Keyboard using standard QWERTY layout in a compact design
- Spill resistant membrane key switch with tested 10 million presses
- IBM AT/PS 2 compatible with DIN 5 pin or mini DIN PS2 connector.
- Optional RS232 interface
- Plug in magnetic reader with single, dual or three tracks for credit cards, ATM cards and driver license
- Integrated bar code interface
- 4 position lock for data access control and multiple keyboard layouts
- Dimension: 439mm (L) x 192mm (W) x 52mm (H)
- Weight: 2.1kg
- FCC, CE, EMC Approved
