

# CRS Sales Territories

Contact the same CRS representatives for all the products CRS offers.

The USA, Canada and Caribbean nations are divided among six sales territories, each with a team of representatives available to help with all product and program information, orders, support, coordinating service and more. Each territory includes a Territory Sales Manager (TSM) with primary support from the associated Inside Sales

Representative (ISR). The Customer Service Representatives (CSR) have no assigned territories and are available to assist all customers.

Please check the map and sales representative matrix to find the territory and primary CRS sales contacts for the area where you are located.
