

TSC RIBBONS

2010 LIST PRICES

WX Series Resin Enhanced Wax Ribbons

Prints a deep, dark black image for outstanding print quality & a durable image. Great general purpose ink formulation that works with coated and uncoated paper and tag materials as well as synthetic papers and films. These ribbons feature SlickStream Backcoating Technology™. A proprietary, low-energy backcoating technology designed to extend the life of your printheads. SlickStream is a silky-smooth, anti-static backcoating that delivers unmatched protection to your valuable printheads.

WR Series Supreme Wax/Resin Ribbons

Used for increased image durability on a wide variety of label and tag materials. Offer superior abrasion resistance. It delivers excellent print darkness and high definition characters and images on papers, synthetic paper, and some films. These ribbons feature SlickStream Backcoating Technology™. A proprietary, low-energy backcoating technology designed to extend the life of your printheads. SlickStream is a silky-smooth, anti-static backcoating that delivers unmatched protection to your valuable printheads.

RE Series Extreme Resin Ribbons

Used in applications requiring extreme abrasion and solvent resistance. Withstands extreme heat and UV exposure. These ribbons feature SlickStream Backcoating Technology™. A proprietary, low-energy backcoating technology designed to extend the life of your printheads. SlickStream is a silky-smooth, anti-static backcoating that delivers unmatched protection to your valuable printheads.
